**A Dutch company is looking for a supplier of stackable collapsible plastic pallet containers interested in a distribution services agreement.**

A Dutch trader of bulk bins in the Netherlands is looking for suppliers of foldable plastic crates that can contain up to 450 kg of bulk material, mostly food, and can be stacked 8-10 high. The filled containers are stored under cooled conditions so the properties of the plastic material have to remain stable under long term conditions of - 7 degrees Celsius. The company is interested in selling these boxes by means of a distribution services agreement.

**Commercial partner search for innovative low emission free-piston gasifier engine with a predicted thermal efficiency of 60%**

A UK SME has developed an innovative low emission free-piston gasifier engine which is multi fuel capable, low cost and weight and generates electricity with a predicted thermal efficiency of 60%. The gasifier engine produces lower friction and integrates waste heat recovery so it requires no external cooling or a lubrication system. The SME is now seeking industrial partners for manufacturing agreements and commercial partners to access on road, off road and light aircraft markets.
